

INVITATION INTERNATIONAL MINOR

'SMART SUSTAINABLE CITIES'

SEPTEMBER 2023 IN UTRECHT

Dear student,

In 2050 70 per cent of the world population will be living in cities. How can we keep our cities attractive, liveable and sustainable? Are you interested in learning to develop smart, innovative and integrated solutions for economic, social and environmental challenges in cities? Do you like to study in an innovative educational environment and work in multidisciplinary groups on real life projects on behalf of three foreign cities? Have you always dreamed of sharing your ideas on smart sustainable cities with experts and students from all over the world?

Stop dreaming and join the one-semester programme on smart sustainable cities of HU University of Applied Sciences Utrecht (the Netherlands) and become the smart sustainable city professional of the future.

Information and registration

More detailed information is available on our website. Click [here](#).

For any questions, please contact: rien.vanstigt@hu.nl or martijn.rietbergen@hu.nl.

We look forward to welcome you in September in Utrecht.
